Dear Colonel Pritchard,

I thank you for your hospitality when we came
to visit around the manor. I met the steward,
John and the Dairy maid. We also met the person
who showed us the study.

I found the study most interesting because I liked
the guns and armor. I also liked the kitchen and servants
hall. In particular we all liked the main hall.

I most enjoyed talking to Mery about all the toys she had.
I also talked to Elizabeth and Edward. I liked having

ago with the toy that you have a piece of wood with
a cup on top and you need to get a ball on string
in the cup.

Now I am in school learning about you. I got back
sagly. We all thank you.

Yours sincerely

Alex Davies

Then I got dressed and packed my stuff, went down stairs to play with my little brother Charlie and while I was playing with him mum and my step-dad Mike were making lunch. After that it was time to go.

We all got in the car ready to go. With all the packed stuff stuffed in the boot and roof box, we started the engine and went off with a puff of smoke behind us. Me and Charlotte were playing in the back with Charlie but then I opened my little book when suddenly Charlie started throwing pens and pencils at me, but after a while he stopped. I started drawing in my little book while I was drawing time flew we were already at the docks. The ferry was already there docked up ready to be loaded. They let trucks on first then let the us on to board the ferry.

After an hour the ^{boat} suddenly started moving. Me Charlotte and Mike went up to the
