

# School Council Newsletter

## November 2011

The School Council has been busy this term helping to organise the cake sale for Children in Need, you may have spotted their posters around school. The cake sale helped school to raise almost £400 towards Children in Need.

The focus for the school council this term has been to gather information about clubs and activities that children take part in outside of school hours. With new families joining the school each year the school council wanted to celebrate the wealth of activities that are available in Frampton Cotterell and the surrounding areas.

A good place to start when looking for activities in the area is **The Village Action Website (see link below)**

## **Our Future Projects**

In the New Year we have decided that we would like to look at the following issues

- Litter around school – we have noticed that not everyone is using the bins provided and we would like to see less litter around school
- Playtimes – The school council would like to explore ways of supporting Key Stage One at playtimes. We would also like to see how the Friendship stop is being used and whether everyone knows it is there and how to use it.
- We are planning to hold an assembly to share with the rest of the school the work that the school council is doing.
